AND THAT'S A WRAP!

The Family Footprints consortium met in Ireland on the 7th of December 2023 for our final transnational partner meeting. This project has focused on supporting citizens and educators to develop the digital skills necessary to embrace the digital transition, while also promoting sustainable living in the family unit. During this meeting, partners discussed their ongoing piloting activities, and their plans for their national multiplier events, where families and educators in each partner country will learn valuable digital climate and literacy skills, that will help prepare them for the dual transition.

FAMILY FOOTPRINTS MULTIPLIER EVENT, SWEDEN

PROJECT RESULTS

- PR1- Induction to Pedagogy Programme for Parents.
- PR2- Digital and Climate Literacy Programme for Parents.
- PR3- Family Learning Toolkit comprising Comic Strips for children, Interactive Magazines for teenagers, and Audio Books for seniors.
- PR4- In-Service Training Programme for Adult Educators.
