The FAMILY FOOTPRINTS Project outlines an Innovative Approach to Digital and Climate Literacy for Families

Project Number: 2021-1-IE01-KA220-ADU-000035273

Press Release 3

[December 2023, Ireland] - The FAMILY FOOTPRINTS project, a game-changing effort dedicated to assisting families in navigating the simultaneous transition of digital and climate literacy, is pleased to announce the successful implementation of its unique activities aimed at empowering families across Europe.

Bridging the Digital Divide with Digital Competence for All

The project's main goal is to help senior adult learners gain digital capabilities through a complete family learning program. FAMILY FOOTPRINTS is committed to bridging the common digital gap in European households by developing digital literacy among all family members, ensuring families can successfully manage their digital footprint.

Adopting a Sustainable Lifestyle

FAMILY FOOTPRINTS remains committed to equipping families with tools for a more sustainable way of life in response to the twin change occurring in European society. In our quickly changing world, the project emphasizes the need of empowering communities to embrace change.

Key Activities Completed Successfully:

PARENT INDUCTION TO PEDAGOGY PROGRAM:

With a focus on online learning and dynamic online tools, we successfully enabled parents to facilitate family learning.

PROGRAM FOR PARENTS ON DUAL TRANSITION: DIGITAL AND CLIMATE LITERACY:

Successfully improved parents' digital and climate literacy, encouraging meaningful family conversations. The training covered digital literacy, climate awareness, and action in depth.

FAMILY LEARNING TOOLKIT: Provided age-appropriate learning materials such as engaging themed comic strips, interactive magazines, and audio books with success.

Co-funded by the
Erasmus+ Programme
of the European Union

- Themed Comic Strips: Introduced the Climate Heroes and Digital Heroes effectively, engaging youngsters in scenarios that illustrated the impact of their activities on their digital and carbon footprints.
- Interactive Digital Magazine for Teens and Young Adults: Successfully provided teenagers and young adults aged 13 to 20 with explainer films, self-help materials, games, and puzzles.
- Senior Adult Learners Audio Books: Effectively supported the learning path of senior adult learners and grandparents.

IN-SERVICE TRAINING PROGRAM FOR COMMUNITY AND ADULT EDUCATORS: Successfully prepared educators to use educational resources effectively.

Diverse Participation: At multiplier events, the project effectively engaged 155 adult educators, 20 from each partner country and 35 online, 10 adult students and parents from each partner country and 10 families from each partner.

Begin Your Journey to Digital and Climate Literacy:

The FAMILY FOOTPRINTS initiative cordially welcomes families, educators, and communities to join the ongoing journey toward a more green and digital European society. Let us work together to leave a lasting beneficial legacy for future generations.
